

4th International Conference on
Earth Science & Climate Change

Alicante, Spain June 16-18, 2015

Brochure >>

Conference Secretariat

5716 Corsa Ave., Suite 110, West Lake, Los Angeles, CA 91362-7354, USA
Ph: +1-650-268-9744, Fax: +1-650-618-1414, Toll free: +1-800-216-6499
Email: earthscience.conference@omicsgroup.us, earthscience@conferenceseries.net

Invitation

My Dear Colleagues,

It would be an honour to invite you for the upcoming the **“4th International Conference on Earth Science & Climate Change”** (Earth Science-2015) during **June 16-18, 2015 Alicante, Spain**. The event will take place in the Alicante, city of palm tree-Alicante, also known as Lucentum (Latin), which means “City of Light” Along with the stunning beaches, huge plazas, wonderful parks and lots of adventure.

The Earth Science-2015 Scientific Committee is planning a very informative scientific programme which will includes an Opening Ceremony, keynote lectures, parallel streams, panel discussions, poster sessions and additional scientific symposia/workshop. Our motto is to gather as many of scientists as possible from different corners of the world, to set up an open debate on Earth Science-2015, as a result we can find some solutions for the problems encountered.

4th International Conference on Earth Science & Climate Change will be organized on the theme **“An Insight into the Recent Advancements in Geosciences and Climate Change Control”**.

We promise that this conference will provide you exceptional network, knowledge and introduce new technologies and techniques in the arena of your research and Reception, Cultural Lectures and much more will make your time unforgettable in Alicante.

We would like to bother for a little favour from your end, please visit the Earth Science-2015 website for more details and latest updates about the meeting.

Regards
Earth Science Organizing Committee

Organizing Committee Members

Abel Navarro
Borough of Manhattan
Community College
USA

Alessandro Pezzoli
Polytechnic & University of Turin
Italy

Martin Aube
University of Sherbrooke
Canada

Jane Liu
University of Toronto
Canada

WenJun Zhang
Sun Yat-sen University
China

Trofimov Alexander
International Scientific
Research Institute of Cosmic
Anthropocology, Russia

Jaime Senabre
Director SINIF
Presidente Comité Científico-
Profesional, Spain

Rosa Lasaponara
Institute of Methodologies for
Environmental Analysis
Italy

Ángel Enrique Salvo Tierra
Universidad de Málaga
Spain

Marcela Hebe
Ciudad Universitaria
Argentina

Dirceu L. Herdies
National Institute for Space
Research - INPE
Brazil

Mukesh Singh Boori
Palacky University
Czech Republic

Lalit Kumar
University of New England
Australia

Cedo Maksimovic
Imperial College London
United Kingdom

Lei Yan
Peking University
China

Uma Seeboonruang
King Mongkut's Institute of
Technology Ladkrabang
Thailand

Speech Opportunity Available!!

We invite you to attend and give a talk on the topic of your expertise to share your views and research with your peers at this event.

Submit your abstract today at: earthscience@conferenceseries.net

Sessions for the present conference will focus on

- Geosciences and Geology
- Meteorology
- Geophysics and Atmospheric Sciences
- Climate Change and Extreme Weather
- Technologies and Applications of Earth Science
- Global Warming and Environmental Change
- Environmental and Marine Sciences
- Environmental Issues and Hazards
- Environmental Management
- Effect of Climate Change on Ecosystem

Supported by

- Journal of Earth Science & Climate Change
- Journal of Climatology & Weather Forecasting
- Journal of Geophysics & Remote Sensing
- Journal of Ecosystem & Ecography
- Journal of Pollution effects & Control

Special Benefits:

- All accepted abstracts will be published in below supported OMICS Group Journals
- Each abstract will be provided with Digital Object Identifier by Cross ref

OMICS Publishing Group is the member of/publishing partner of/source content provider to

Toll Free: +1-800-216-6499 (USA & Canada), +1-800-651-097 (Australia), 0805-080048 (Europe)

Workshops

Workshop @ Earth Science-2015
Stakeholders Engagement in Vulnerability Assessment
and Adaptation to Climate Change

Elena Lioubimtseva
Grand Valley State University, USA

Workshop @ Earth Science-2015
Heliogerontology at The Epoch of Cosmoplanetary
and Climate Changes

Alexander Trofimov
ISRICA, Russia

Collaborations

About Us

OMICS Group Journals

- 300 Open Access Journals
- 21 Day rapid review process
- 22000 Editorial team, 27000 Reviewers team
- 2.5 Million readers and high visibility
- More than 100000 
- Publication immediately after acceptance
- Quality and quick editorial, review processing

Key features

- User friendly/feasible website translation of your paper to 50 world's leading languages
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits

OMICS Group Conferences

- 80 Conferences all over the World every year
- Well organized scientific program
- Renowned speakers and scientists across the globe
- Poster presentations and world class exhibits
- Panel discussions and interactive sessions
- B2B meetings
- Perfect platform for Global Networking

Key features

- Presentation by renowned speakers from all over the world
- Poster presentations and world class exhibits
- Interactive Sessions
- Platform for global networking
- Connecting scientific community

Special Issues

All accepted abstracts will be published in respective OMICS Group Journals

Each abstract will be provided with digital Object Identifier by 

The field of Earth Science & Climate Change is growing rapidly and its development is making tremendous impacts in Geosciences and Technologies. The importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

Earth Science-2015

- Opportunity to attend the presentations delivered by eminent scientists from all over the world
- Selected contributions will be published in following OMICS Group Journals
 - Journal of Earth Science & Climate Change
 - Journal of Climatology & Wather Forecasting
 - Journal of Geophysics & Remote Sensing
 - Journal of Ecosystem & Ecography
 - Journal of Pollution effects & Control
- Participation in sessions on specific topics on which the conference is expected to achieve progress
- Global networking: In transferring and exchanging Ideas
- Conference brings together Scientific Researchers, Geoscientist, Climatologist, Hydrologist

« About Alicante

Alicante (Spanish: [ali kante]), or Alacant both official names, is a city and port in Spain on the Costa Blanca, the capital of the province of Alicante and of the comarca of Alacantí, in the south of the Valencian Community. It is also a historic Mediterranean port. The population of the city of Alicante proper was 334,329, estimated as of 2011, ranking as the second-largest Valencian city. Including nearby municipalities, the Alicante conurbation had 462,281 residents. The population of the metropolitan area (including Elche and satellite towns) was 771,061 as of 2011 estimates, ranking as the eighth-largest metropolitan area of Spain.

Alicante is one most important tourist destinations in the Spanish east coast. The many golf courses, along with the tranquil waters of the Mediterranean Sea, are part of the appeal of this beautiful harbour city, which sits at the foot of the Castle of Santa Barbara, a silent witness to the numerous civilisations to have settled here. The historic quarter, at the foot of this fortress, conceals an interesting religious and civil architectural legacy, including the emblematic Explanada de Espana (Spain boulevard), a traditional recreational area to the local residents. Alicante is also a land of deeply-rooted traditions, such as the Moors and Christians festivities and the Night of San Juan. When it comes to Alicante's delicious cuisine, rice takes the central stage, cooked in a million different ways.

Alicante has a Mediterranean climate that features hot summers and mild winters. Alicante is protected by Northern hills and mountains which results in a constant micro climate which also limits the rainfall. It usually has no more than 20 days of rainfall every year. Famous for its excellent weather, the city invites you to take a trip along the coast or to the wonderful island of Tabarca. Along the Alicante harbor you find beautiful long alleys for nice relaxing walks, enjoying the palm trees and the mild climate. Additional to sightseeing, direct from the harbor area, a long wide sandy beach leads its way up to San Juan. Just drop your towel on the sand and enjoy a wonderful day in the sun. During summer time, Alicante with its Airport is a starting point for many Costa Blanca tourists, while during the winter month's tourists and residents tend to live along the coast in places like Benidorm, Calpe and Denia.

The airport in Alicante is currently the sixth largest airport in Spain. Growing in size continuously over the past years, in March 2011 the airport got a brand new terminal building replacing the old two terminals.

Conference Details

Venue

Melia Alicante
Plaza del Puerto, 3
03001 Alacant
Alicante, Spain
Tel: 34 965 20 50 00

Venue Highlights

At 50 m from the beach Postiguet
At 50 m from the Marina
At 100 m from the emblematic Paseo de la Esplanade
150 meters from the Historic City Centre
At 300 m from the shopping area
800 m from the Castle of Santa Barbara
800 m from the Archaeological Museum
A 23 km from Elche
40 km from Terra Mitica
A 52 km from Altea
A 166 km from Valencia
A 422 km from Madrid
A 515 km from Barcelona
A 609 km from Sevilla

Important Dates

Abstract submission opens: August 30, 2014
Registration opens: September 03, 2014
On spot registration: June 16, 2015

Registration Details: <http://earthscience.conferenceseries.com/usa-registration.php>

Abstract Submission Details: <http://earthscience.conferenceseries.com/call-for-abstracts.php>
